Position seeking: Director of the HXNYC Board

I am currently the Director of the Board in HXNYC. My term ends on July 31st. In my wish to continue serving our school, I am seeking there-election of director of the board.

As one of directors of the board and as a volunteer in various positions within the administration and the PTA, I have gained insights into the functioning of the school. I realized how dependent our school is on the dedication of a few volunteers and the amount of time and energy it takes to have the school run smoothly. As a director on the Board, I will continually try to encourage more parents to volunteer as office bearers within our school.

During my tenure as director of the board for 2 years and vice principal for 5 years, working with my team members and with parents' support, our school events and registration has been smooth, and we have treated every family fairly and effectively. We have done our best to take care the need of each family and make every student happy. I believe that I have the necessary experience and perspectives to provide a supportive environment to enable the administration and the PTA to do their jobs well.

If reelected, I will focus on the long-term health of the school and to make our school more competitive in the market place. I will provide guidance to our administration and the PTA volunteers when needed and foster congenial relationships among different teams. My ultimate goal is to make our school a great place for our children to learn Chinese language and culture.

Thank you for your support of my candidacy.
